

NOTICE OF COVID-19 IMMUNIZATION REPORTING REQUIREMENTS

As stated in the Order of the Secretary of Health effective December 15, 2020, COVID-19 is a reportable disease under Pennsylvania's Disease Prevention and Control Law. The Department of Health ("DOH") is therefore requiring that each immunization of COVID-19 be reported in order to enable DOH to prevent and control the spread of COVID-19 in Pennsylvania.

In addition, in order to obtain the vaccine from the federal government, DOH is required to report certain information to the Centers for Disease Control and Prevention ("CDC"). The CDC has stated that the reported information will enable it to ship the appropriate amounts and types of vaccine to each state.

Accordingly, within 24 hours of administration of the COVID-19 immunization, Mount Nittany Health is required by law to report the following information to the Pennsylvania Statewide Immunization Information System (PA SIIS), which in turn will report the information to the CDC:

Patient Information:

- First, middle and last name
- Date of birth
- Gender
- Race and ethnicity
- Address (street, city, county, state, zip)
- Primary phone number

Vaccine Administration Information:

- Lot number, expiration date, CVX and MVX codes
- Date of vaccine
- Route of vaccine administration
- Body site of vaccine administration

If you have any questions about this reporting requirement, please contact the Corporate Compliance Officer at x.7189.
